Hi there! I'm Kasey, a passionate UX Designer with a deep understanding of human behavior and a love for creating intuitive, user-centered designs. My journey into UX design is uniquely shaped by 17 years of experience as a restaurant owner and manager. Over the years, I've learned that great design, whether it's a user interface or a dining experience, hinges on understanding the needs, preferences, and emotions of the people you're serving.

Running a restaurant for nearly two decades was more than just about food—it was about crafting an experience. From leading a team of 30 staff members to ensuring every customer left satisfied, I developed a keen eye for operational efficiency, empathy, and the importance of clear communication. These skills seamlessly translate into my work as a UX designer, where I focus on optimizing digital experiences to be intuitive, efficient, and enjoyable for users.

SKILLS

User Experience (UX)

User Interface (UI)

Color Design

Prototyping

Creativity and Innovation

Wireframing

Empathy Mapping

Team Leading

EXPERIENCE

Stockpot Inc. dba Sup Reno, NV. — *Restaurant Owner*

AUG 2007 - PRESENT

I founded Sup and have served as the owner and manager for the past 17 years. During this time, I've gained extensive experience in all aspects of operations, including HR, training, payroll, bookkeeping, management, customer satisfaction, social media, and more.

EDUCATION

Truckee Meadows Community College, Reno, NV.—

AUG 2005 - AUG 2006

General studies and Art

University of Denver, Remote — *UX/UI Bootcamp*

JUN 2024 - DEC 2024

I'm a passionate and creative UX Designer with hands-on experience in user-centered design, wireframing, prototyping, and usability testing. A recent graduate of the University of Denver's UX/UI Design Bootcamp, I bring a solid foundation in design thinking, a strong passion for collaboration, and a commitment to solving complex user challenges with innovative solutions.
